

TAURANGA DISTRICT PLAN PROPERTY COUNCIL WORKSHOP SESSIONS

Property Council
New Zealand

Tauranga District Council has notified its Proposed District Plan. The submissions to the District Plan close on Tuesday 15 December 09. Property Council NZ (Bay of Plenty Branch) will be making a comprehensive submission on the Proposed Plan on behalf of its members.

We have engaged Harrison Grierson and Aurecon to prepare a summary document setting out the key changes to the plan. Harrison Grierson will cover most of the chapters in the District Plan relating to residential zones while Aurecon will look primarily at the commercial and industrial zones.

These firms will prepare a summary of the proposed changes and present this to workshop sessions to be held on Tuesday 24 and Wednesday 25 November. The workshop session on 24 November will cover more of the residential issues whilst the workshop on 25 November will cover industrial, commercial and other issues.

The consultants will use the consensus obtained from you at these workshops to prepare submissions on the Proposed District Plan for the Property Council.

As a party that may be affected by the Proposed District Plan, we invite you to attend either of these workshops, or both.
